“

I've never seen a youth leadership development program that has the impact on students like the National Leadership Academy. This program teaches what schools and homes sometimes don't - love, leadership, and service towards all people.

NLA is a program that I deeply believe in. Our kids always come back stronger, more inside themselves, more able to use their voices and to give back to others.

I loved that everyone was included and it was a safe environment. Everyone was able to be open and experience new things. You leave more inspired to do more.
